TECHNICAL PROJECTS

Active Directory Enterprise Home Lab | Windows Server, Active Directory, DNS, Hyper-V

- Built a virtualized Windows Server domain environment to simulate core IT infrastructure for a small organization.
- Installed and configured Active Directory Domain Services (AD DS) and DNS on a Windows Server domain controller.
- Designed an organizational unit structure for departments, users, servers, and security groups to practice scalable identity administration.
- Documented configurations and troubleshooting steps, creating a repeatable reference for future lab expansion and issue resolution.

EXPERIENCE

Arkansas Army National Guard - Arkansas
Signal Support Systems Specialist (25U) | Oct 2023 - Present

- Provide communications and technical support for 100–200 soldiers during drills and exercises, resolving 20+ technical issues per drill or exercise.
- Configure and maintain 60+ radios, computers, and related devices; help set up 20+ vehicles or communications systems.
- Train and assist 20+ soldiers with communications equipment operation and troubleshooting.
- Organized an assembly-line workflow with two other soldiers to update Joint Battle Command–Platform (JBCP) systems efficiently.
- Reduced communications setup and teardown time by approximately 30% through standardized procedures and equipment-placement plans.

Jose's Mexican Grill - Arkansas
Server | Aug 2025 - Present

- Serve 20–60 customers per shift while managing 2–12 tables simultaneously and processing 20–40 orders or payments.
- Led service for a 50-person reservation, developing a system to coordinate drinks, orders, and food delivery efficiently and achieve high customer satisfaction.
- Assist Spanish-speaking customers at least five times per shift, using bilingual communication to clarify orders and address concerns.
- Helped train two new employees on restaurant service procedures and customer service.

Merchants Wholesale - Arkansas
Warehouse Worker / Delivery Driver | Jan 2025 - Aug 2025

- Prepared, verified, and organized 50+ customer orders per shift, helping maintain accurate and timely deliveries.
- Completed 10 - 20 deliveries per day across assigned routes while providing dependable and professional customer service all across Arkansas.
- Planned and followed delivery routes covering up to 250 miles per shift to meet scheduled delivery windows.
- Maintained 100% order and delivery accuracy by verifying products, quantities, and customer information before departure.

ADDITIONAL

Languages: English and Spanish (bilingual)
